pdxphp : Chirpify.com

Jonathan "Duke" Leto

What is Chirpify, really?

Chirpify turns tweets into transactions.

- Pre-auth your @twitter account

- Pre-auth your Paypal

- Tweet "Pay @bob \$50 for stuff" $\rightarrow$ instant transaction

Example: tweet-a-beer.com

What do you want to build?

- Mobile apps that require payment
- Micro-funding
- Location-based payments
- ...
